(with chamfer: not in the picture)

# Brass Shell Weights

We have brass shells in different lengths and diameters that can be filled with cast iron, steel or lead to reach a certain weight.

Alternatively we can assemble single weights or deliver them in sets of 2 or 3.

## Description:

### Shell:

Ø 40 mm or 50 mm, polished, with 2 flat lids, length can be shortened as needed.

## Supplies:

Nib with an internal screw thread or external screw thread

Hook with an internal screw thread or external screw thread

Eye screw with an internal screw thread or external screw thread

## Filling:

The filling depends on the weight and will be put together as needed.
